Fiver Video Profits (Private Source list)

Fiverr video gigs + Fiverr youtube gigs + Fiver source code ... PROFIT

Within this report we will be sharing about using Fiverr for video testimonials and ACTUAL gigs we use to promote these youtube videos to get some traffic flowing to your website, affiliate offer, or business.

It's very simple to implement and best of all it works! (Please refer to the extended PDF where we show you current affiliate offer promotions and the 100s of clicks we got)

What will you find here?

1. Top Tested [fiverr video gigs](#): These are real fiverr gigs that deliver results. We are sharing with you our secret list that we've literally kept to ourselves till date.
2. PROVEN [fiverr gigs for youtube](#): These are gigs that will get you real youtube likes, subscribers, and views. The stuff you need to promote your video and get it off correctly.
3. A effective SEO highlight to rank your video.

The emphasis of this guide is sharing actual gigs we use to create video testimonials – It initially started out as a private list we wanted to share on the WarriorForum of actual video gigs we've used. However after some consideration we thought we'd share how we actually use these videos to drive POWERFUL traffic as well. (Traffic that has gotten us some very passive affiliate commission and consistent CPA conversions - Some of our videos were setup over a year back and still delivers traffic today...even after the youtube craze)

We hope now to share with you some of the BEST fiverr gigs we personally used for video testimonials. We have also added links to useful fiverr gigs we've used to send real youtube views, likes, and subscribers to those videos. This will make it simple for you to outsource the process; we also hope to make this to be an easy to follow and productive guide to setting up profitable videos on youtube.

Why Youtube?

1. Video on youtube rank easier: Google is more friendly towards Youtube and we have seen less algorithm changes that affect youtube videos down through the years even when it become popular.
2. Videos on youtube convert well: People are more interested in your product when you build some rapport with them. One way to do this effectively is a tutorial video or a video testimonial because they have someone to associate to.
3. Videos on youtube work passively: It takes minimal amount of effort to effectively setup a youtube video that can last for years. Youtube video can passively drive traffic and conversions

longer than articles. (See how some videos never seem to grow old like this whereas you don't read articles over and over)

Note: We have used youtube to generate traffic for our affiliate and CPA offers since January 9, 2011. Some of the videos we have set up are still passively delivering traffic (and CASH) TODAY! **Youtube videos are highly scalable and passive income source.**

Sample 1: this is a video we recently did for the Easy video suite launch (it ranked for the term "Easy Video Suite" at its peak popularity.

<http://www.youtube.com/watch?v=XVlnQG4xUfQ>

This was one really simple video we ranked for the term "Easy Video Suite" and then left it since. We did not set it up for passivity or do an extensive campaign hence you won't find it on the first page anymore.

Sample 2: Here are some screenshots of current stats of videos. We cannot share the link to these videos as they are on accounts we are still using. This has been one of those videos we set up and left there since (except changing the affiliate links every so often)

Did I mention that this was a video in the weight loss niche?

If you're counting it's 15 months since it was set up; on average it would work out to 12k+ views monthly which isn't bad for weight loss eh?

Fiverr video testimonials:

The first part to implementing this method is getting a video done about your product, service, or website. You can indeed create your own video using Window's video maker or even your own web cam although here are some excellent Fiverr video gigs that we have used.

What's great about these?

- Individual Speak clearly
- They are Professional (Doesn't look like they are reading off any script = more trust from your viewers)

[Click Here to get Youtube Bully 2](#)

- They interest potential viewers (one significant factor to people viewing your video is the screen capture displayed with your video)

Who are these 5-star Fiverr Video providers?

We have literally spent HOURS (probably totaling 50 hours searching, sorting and testing out gigs) now we are going to share with you our five favorite 5-Star gigs:

1. The first gig we would recommend is Allie Madison. She was one of the first video gig we used and continues to deliver results.

She is especially good at getting the audience attention. We have found more comments and reactions to videos we have engaged Allie to do. I assume it's because of her classy and attractive persona. Her videos are also very "natural".

(search for alliemaidsn12 if you can't click through)

The other four Fiverr Video Gigs for you:

2. The second gig we'd recommend is Kat (AKA AllyKat).

She's really good at making the video look natural. AllyKat also happens to be a communication major and is well able to convey the message you're trying to bring across in an authentic manor.

Link: <http://www.iminfohub.com/fiverr/allykat2>

(search for allykat if you can't click through)

3. We have used Rin chan for a variety of gigs from product presentations to standard affiliate promotions.

Her spoken language seems flawless. She speaks each word crisply and clearly. These are VERY real video testimonials; she must have some acting skills because she is able to present our affiliate videos (basically a script about the product) without proper corresponding body language. There are actual emotional reactions and the script seems memorized.

(Please search rinchan86 if you can't click the link)

4. If you're looking to promote a product professionally with a suit and tie, this is an incredible gig for \$5

Link: <http://www.iminfohub.com/fiverr/4suitup>

(Please search screamingfinger if you can't click the link)

5. DJYoung is very good at making casual videos that really interact with the audience. He's an actual voice and video actor so you can be sure your video will be done professionally.

Link: <http://www.iminfohub.com/fiverr/5djyoung>

(Please search djyoung if you can't click the link)

Since we have literally sifted through 100+ video gigs (both technical and persona video style), there are MANY other video gigs we'd like to recommend. This is one thing fiverr is good for. You can't really go wrong with a video gig on fiverr.

To keep this guide concise we have shared five favourites but if you're looking for more fiverr video gigs please simply send me an email at eBook@iminfohub.com and request it.

Buy real youtube views, likes, and subscribers...with Fiverr:

Fiverr is also an excellent place to find real youtube likes, views, and subscribers.

To get you off to a good start we would suggest blasting your video with some good youtube views, likes, and shares. This will help your video popularity. It will get you more organic views as well add immediate trust to any potential viewers (if you see a video with more dislikes than likes you'd be less likely to watch it or trust what they say)

Protip: We've also notice that if your video as a good # of likes it's much more unlikely for people to dislike it later! Although if you start off with a mix of dislike and likes, it'll be more likely for it to be disliked.

[Our favourite Fiverr Youtube gigs:](#)

Once again to avoid you the hassle of sorting through a bunch of scam gigs we are sharing with you our own short list. As with the fiverr video gig we're going to share with you our top 5 favourite fiverr youtube gigs.

Each one of these are gigs we've tested on our own videos which have proven successful over MONTHS already.

1. Marcusy has been one of our top Youtube service providers we have used. He does it quickly and we haven't had any issues with his service. They provide real subscribers which also does help with your video appearing in "related videos" and likely your video ranks also.

Link: <http://www.iminfohub.com/fiverr/gig1>

(Please search marcusy if you can't click the link)

2. This one is not real though it works very well and we've been using for months without any issues. This gig is excellent for an All-in-One youtube service gig; you get the views, likes, subscribers and favourites you need in ONE gig. Value wise this is probably the best deal you can get.

Link: <http://www.iminfohub.com/fiverr/gig2>

(Please search badgehelp if you can't click the link)

3. This has been another provider that we have used previously which delivered excellent results. Though I can't be certain they are doing it with real likes, we have not had any issues with them. Once again they deliver both views (more), likes and favourites in one gig here.

Link: <http://www.iminfohub.com/fiverr/gig3>

(Please search fiverr_expert if you can't click the link)

4. This gig is special because the referral id comes from facebook. We would highly recommend this as the ideal gig. While it is slightly fewer in # of likes and subscribers the Facebook referral id makes it a lot better.

(Please search harry2388 if you can't click the link)

Link: <http://www.iminfohub.com/fiverr/gigbest>

5. We used this a while back and their service is good. This has been one of the fiverr gig we used several years back and probably the one we used most! There has been no issues using this provider.

Once again as with the video gigs we have ran through 100s of youtube fiverr gigs and understandably have a more extensive shortlist of good gigs than what we have shared here for your benefit. (We have shared only those we have tested and the cream of the crop so to speak) Should you want more fiverr gigs (to avoid you the hours we spent searching and shortlisting them), simply request:

How do you get real youtube views?

There are many video exchange sites that offer to view your video if you watch their video. This is how several fiverr gigs get you real user video views. (I doubt you want to spend hours watching videos to get some views on your videos)

One upcoming trend is using facebook groups, twitter accounts, and linkedin groups as social exchange mediums. Meaning you join a Facebook group and members in that group are interested in mutually voting and viewing.

This means that the referring url towards your youtube video would be coming from URLs like "Facebook.com" "Twitter.com" and "linkedin.com". Needless to say, it's much nicer for your videos.

How do you get real youtube likes?

Many sellers often sell fake youtube likes by creating inflated and bogus profiles (there are numerous scripts available online that do this) for the purpose of liking videos or subscribing to channels.

It is important to note, Youtube often screens and cleans every so often to remove bogus and fake account which could put your video and account at risk. We suggest you use actual youtube profiles for your video likes; it adds more value to your video and gets you more views.

This can be done once again with the methods described above where each individual maintains their own account to exchange.

How do you get real youtube subscribers?

Once again as described above the common methods are using fake accounts with proxies though there are also legitimate accounts through subscriber exchanges.

This can be very tedious to do yourself (especially for one or two videos) which is why we have suggested a list of personally tested youtube fiverr gigs.

Social Exchange site:

In case you do actually choose to do the social exchange yourself, here are a few site that specialize with doing this. Though I would suggest against it, social exchange site come and go.

<http://www.youlikehits.com/>

6. The longest standing social exchange site to my knowledge

<http://www.like4like.org/>

7. This exchange site has huge mix of sites including sound cloud and pinterest.

<http://www.tweib.com/>

8. If you notice this site is also using a fiverr gig for their video presentation. It's also one of the bigger social exchanges.

You would be better getting a Fiverr gig above than wasting your time trying to maintain your account on these temporary sites. The other alternative recommendation is joining selected Facebook groups to naturally exchange likes which will last longer than most of these social exchange sites.

Youtube SEO:

You should also get a basic understanding of how you rank your videos on youtube and Google; This section we'll share with you some working links for getting your youtube videos ranked better on Youtube and Google.

This is not intended to be a complete SEO guide but a simple, basic outline to consider.

A large portion to getting your video ranked is having a good # of likes, comments, and views on your video. It also helps to get real youtube subscribers on your account and kick start your video quicker.

With all these said, having backlinks to your videos still matter and is a significant factor to having your videos ranked on Google. Here are some backlinks to look for:

What works on youtube today:

1. Keyword in your title: Make sure your primary keyword is used early in your title
2. Keyword used in your tags
3. Keyword used in your description: Keep your description at a nice 100+ word with your keyword used around three to four times for every 100 words of video text.
4. Kick your video off with real youtube videos, real youtube likes, real youtube comments. This will get some momentum for you.

[Click Here to get Youtube Bully 2](#)

5. With link building, start off with some good social signals such as Facebook likes, facebook link shares, twitter retweets, and some social bookmark shares on stumble upon.
6. Continue with some SERIOUS link juice from document sites, web 2.0, and wikis (unlike typical websites, you can really blast your videos with links)
7. Finish off with some high quality PR links which can be obtained from niche-related blogs or on niche related forums

Note: Once your video catches on with the social campaign you'll start to build a lot of natural links (in our experience) and real embeds to websites.

The Good news:

Youtube videos are well known to rank much easier and better than websites on Google. Having your youtube ranked for a term can take a FRACTION of the cost it would take for a website to rank (especially depending on the site authority).

Youtube videos can also take more beatings than a website. This means you don't need to be as worried about ensuring you have everything perfectly lined up in your link building campaign. You can toss more links at your videos without too much concern about being sandbox. In fact, if you do it right, having a lot of links to your video can actually help your video more (by making it look viral)

People are more likely to share your video on their website than a link to your article. This is because videos are more engaging and typically also less used (by marketers). These videos are easier to curate and thus you find your link embed in more sites naturally than an actual website.

Conclusion:

We hope you enjoyed our quick guide on using Youtube with fiverr gigs. Do remember the gigs we have shared are not random gigs but ACTUAL gigs we use and will use again.

Youtube can drive POWERFUL (converting) and immense amount of traffic to your affiliate offers, website, or business (phone calls, leads). We have also found youtube traffic to convert VERY well. (We had a CPA offer converting at 30% for an email submit)
